

# COMPANY OF IRON

## REQUISITION COSTS

UPDATED: OCTOBER 2017

These tables list the requisition costs of models used in Company of Iron games. The cost for units that have both a minimum-strength and a maximum-strength unit size include two numbers, the first corresponding to the minimum strength and the second to the maximum strength.

The requisition cost of weapon attachments is not cumulative; use the cost listed regardless of the number of weapon attachments added to a unit.

These tables will be updated as new models are released. Updated requisition costs can be found at [www.privateerpress.com/rules](http://www.privateerpress.com/rules).

### Model Count Adjustment

If your opponent starts the game with at least twice as many models in their army as you have, increase your hand size by one. If your opponent has at least three times as many models, increase your hand size by two.

**CIRCLE ORBOROS**

<b>SOLOS</b>	
Blackclad Stoneshaper	+1
